

Welcome to Kamlunge camping.

Welcome to the scenic Kamlunge and the small campsite at the Kalix River. A quiet place for relaxation and recreation, with stunning nature & fine fishing grounds.

Facility

In the area there are maintenance building with toilets, shower, sauna and out drive. All the water in the service building is made up of Riverwater. Drinking water is available on marked tap at the slope of the area (next to the information board). Board for sauna reservation is placed at its entrance.

Waste and waste disposal

Sink vessels for flammable waste and for food waste can be found at the end of the service building. Other waste, glass, metal, cardboard and hazardous waste are included by each (can be left at the waste deposit in Bondersbyn). Drainage of caravans / mobile homes will be done in the well next to the service building.

Scheme rules

All spaces in the service building must be locked. Visitors will receive a key to the service building as well as the tap for drinking water. When visiting toilets and showers, the key with a tray must be left on the outside of the door in the lock (signal that it is occupied). The doors can be locked from the inside. Dogs, cats or other animals may not be taken into the premises of the service building. Think of allergies! Pets must always be kept connected within the camping area.

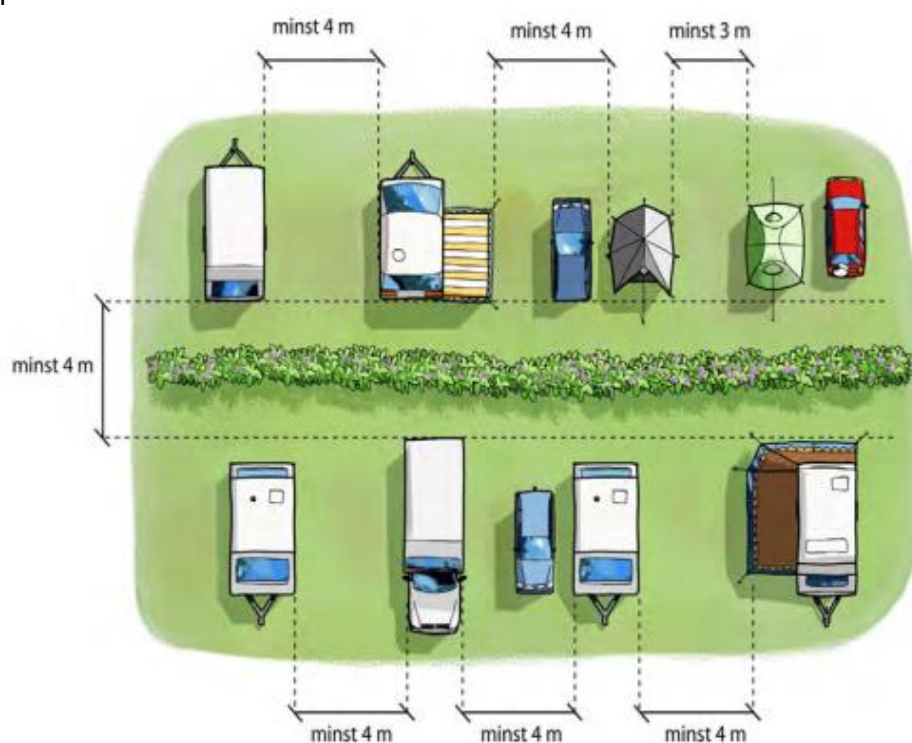

To avoid overload in the mains, the power take-off is limited to 1kW per equipage.

If questions arise, call the caravan club's service phone: 073-724 97 18 or contact one of our camping hosts. Payment for the stay is made via BG 225-6105 or through our Swish number 123 683 89 99 If other information is requested, it is advisable to contact the current camping host, which is marked with **RED** pennant at the caravan.

Location of caravan / camper

The distance between two camping vehicles or between a camping vehicle and a tent should be at least four meters. The distance between two tents should be at least three meters. By caravan is meant caravan or camper including any awning or the like. For guidance see picture below:

Rekommenderade säkerhetsavstånd.

It is your own responsibility as a camping guest to ensure that the distances to your neighbours are kept.

For those who want to fish

Kamlunges fishing water consists of a seven-kilometer-long river stretch with several nice runs and calm floating stretches. Among other things, the nice channel This allows for the capture of several different species, among other things. grayling, salmon, trout, pike and lake.

Please do not forget to return your key in the postbox at the left frontside of the service building at departure.
